Common but not essential

¹ Assumes a 12–18 month period.

² The *What Makes an Effective Corrections Professional?* Guide is not listed in the sequencing chart. Review this Guide first if you are a first-time Carey Guide user.

³ It is recommended that this Guide be used first with all offenders.

⁴ Especially for the corrections professional who feels challenged when conducting practice sessions with offenders.

* Use the *Reentry* Guide for individuals who are nearing release or have just been released to the community, and for those preparing to be released from the justice system.
